

DECCO CEREXAGRI

DECCOSAN® 320

Detergent / Disinfectant / Sanitizer

ACTIVE INGREDIENTS:

- n-Alkyl (60% C₁₄, 30% C₁₆, 5% C₁₂, 5% C₁₈)
- dimethyl benzyl ammonium chlorides..... 1.6%
- n-Alkyl (68% C₁₂, 32% C₁₄)
- dimethyl ethylbenzel ammonium chlorides..... 1.6%

INERT INGREDIENTS..... 96.8%

KEEP OUT OF THE REACH OF CHILDREN

DANGER

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, and gelatin solution or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

See side panel for additional precautionary statements.

PRECAUTIONARY STATEMENTS
Hazard to Humans and Domestic Animals
DANGER

Keep Out of Reach of Children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

ENVIRONMENTAL HAZARD

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of National Pollutant Discharge Elimination System (NPDES) permit and permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

SPILL OR LEAK: In case of spill, flush area with water spray.

DIRECTION FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage and disposal.
STORAGE: Store in a dry place no lower in temperature than 50⁰ F or higher than 120⁰ F.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazards. Improper disposal of excess pesticide spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticide or Environmental Control Agency, or Hazardous Waste Representative at the nearest EPA regional Office.

CONTAINER DISPOSAL: Do not reuse empty container. Triple rinse empty container with water. Return metal drum then offer for reconditioning or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Plastic containers may be disposed of in a sanitary landfill, incineration, if allowed by local authorities, by burning. If burned, stay out of smoke.

Direction for use continued on next panel

APPLICATION

DECCOSAN 320 detergent/disinfectant has been designed specifically for food

processing plants, and non-medical institutions where housekeeping is of prime importance.

DISINFECTION - To disinfect hard inanimate surfaces (such as walls, floors, table tops), apply solution with mop, cloth, sponge or mechanical sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes and then let air dry.

DILUTION RATES - General Disinfection - Add 2 ounces DECCOSAN 320 per gallon of water. For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh solution for each use.

MILDEWSTAT - To control molds and mildew on hard non-porous surfaces (such as floors, walls, table tops) clean surfaces then add 2 ounces per gallon of water. Apply with a cloth, mop or sponge to surfaces to be treated making sure to wet thoroughly. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mold growth reappears.

SANITIZATION - To sanitize previously cleaned and rinsed non-porous food contact surfaces, prepare 200 ppm active quaternary solution by adding 4 ounces to 5 gallons of water. To sanitize immobile items (such as tanks, chopping blocks, counter tops), flood the area with 200 ppm solution or apply with a cloth or sponge, making sure to set all surfaces completely for at least 60 seconds. Let air dry. Prepare a fresh solution for each use. To sanitize mobile items (where practical), immerse in 200 ppm solution for at least 60 seconds making sure to immerse completely. Remove and let air dry. Prepare a fresh solution daily or more frequently as soil is apparent.

DECCOSAN 320 is a phosphate free cleanser disinfectant and sanitizer designed for general food processing plants and light industrial applications where housekeeping is of prime importance in controlling the hazard of cross contamination. When used as directed DECCOSAN 320 is formulated to disinfect inanimate hard surfaces (such as walls, floors sink tops, tables, etc.). For larger areas, the product is designed to provide both general cleaning and disinfecting. In addition, DECCOSAN 320 deodorized those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and caps, toilet bowls and any other areas which are prone to odors caused by microorganisms.

EFFICACY TESTS HAVE DEMONSTRATED THAT DECCOSAN 320 IS AN EFFECTIVE BACTERICIDE, FUNGICIDE, IN THE PRESENCE OF ORGANIC SOIL (5% BLOOD SERUM).

Mold and MILDEWSTAT - DECCOSAN 320 controls mold and mildew and the odors they cause on hard non-porous inanimate surfaces at 2 ounces per gallon dilution.

SANITIZATION - When used for sanitization of previously cleaned food equipment or food contact items limit active quaternaries to 200 ppm. At this level NO POTABLE WATER RINSE is required.

SANITIZATION - When used for sanitization of previously cleaned equipment, it is an effective sanitizer when diluted in water up to 250 ppm hardness (CaCO₃).

CITRUS CANKER CONTROL: To reduce the risk of spread of Citrus Canker treat all vehicles, and harvesting equipment and tools thoroughly by applying a 2000ppm quat solution to trucks, attached trailers, field harvesting equipment; including cargo areas, wheels, tires, under carriage, hood, roof, fenders and any other part of transportation equipment that can be taken into the infested areas as well as to outer clothing and shoes. For use dilute one part of Deccosan 320 with 15 parts of water to a 0.2%(2000ppm) solution and apply it by trigger spraying, dipping, mopping or brushing.

Clothing should be laundered and footwear should be rinsed before reuse.
