PRODUCT DATA SHEET

Citrus Lustr 267 Fruit Coating

DESCRIPTION

Citrus Lustr® 267 is a high shine coating for post harvest application to citrus fruit in Florida. The coating will reduce weight loss due to dehydration and serves as a compatible carrier for most fungicides. The product is suitable for application on citrus for export to Japan.

COMPOSITION

Citrus Lustr® 267 is an aqueous solution of alkali soluble resins, fatty acids soaps, propylene glycol, silicone antifoam, and Propyl paraben as a wax preservative.

DIRECTIONS FOR USE

For post harvest application on clean citrus. Apply by spraying or dripping without dilution. Apply at a rate of one gallon of coating to 8,000 pounds of small or 10,000 pounds of large clean and damp fruit, or for use in the Decco process by or under the supervision of Decco personnel.

PRECAUTIONS

Avoid breathing vapor. Keep container closed. Use with adequate ventilation. See label and MSDS for additional precautions and first aid.

STORAGE AND DISPOSAL

Store in a cool dry place. Keep away from extreme temperature changes. If frozen, thaw completely and mix well before using.

PHYSICAL PROPERTIES

Appearance:	Translucent brown liquid
pH range:	8.8 ± 0.3
Specific gravity:	1.03 g/cc or 8.6 lbs/gal
Flash Point	Greater than 200°F
%Solids	22.0± 0.5

SHIPPING CLASSIFICATION

Coating, wax, Fruit N.O.I.

(Pd276)
