

PRODUCT DATA SHEET

Decco 276 EC Potato Sprout Inhibitor

DESCRIPTION: An emulsified concentrate of sprout inhibitor for use on potatoes (EPA Reg. No. 2792-40).

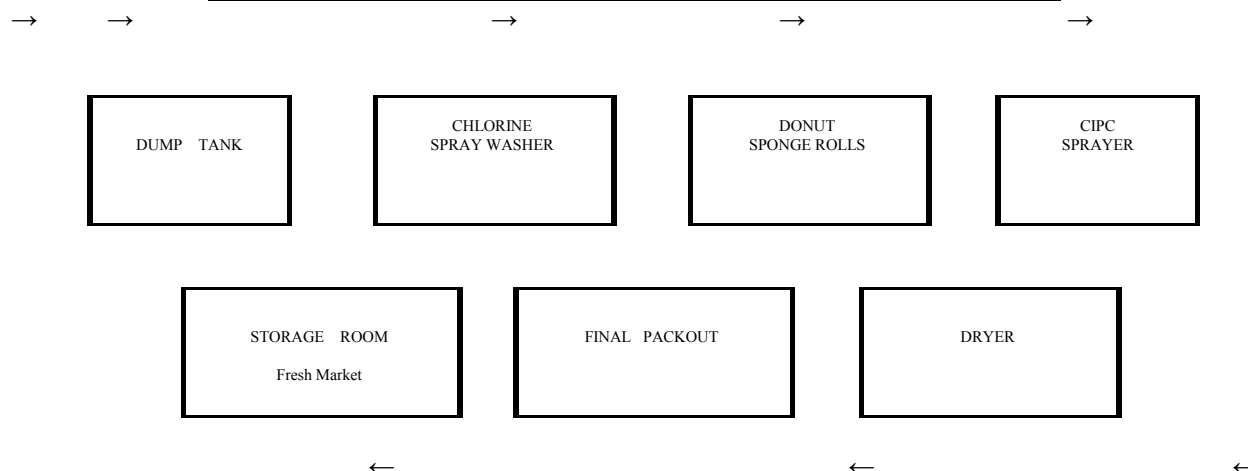

DIRECTIONS FOR USE: Decco 276 EC is applied at 1% active ingredient on washed and damp dried potatoes. The diluted material should be applied using spray nozzles placed evenly across the rolls on which the potatoes are being moved. The diluted solution can also be applied by a foaming system in conjunction with a suitable foaming agent.

Avoid storage below freezing temperature. Prolonged storage may result in gel formation. Warming contents and agitation will restore material to usable condition, but do not heat above 250°F.

DILUTION OF THE CONCENTRATE: Add one gallon of Decco 276 EC to 24 gallons of water and mix well. A milky white emulsion will develop. Use this diluted emulsion at a rate of one gallon per 8,000 lbs of potatoes (one gallon for every 80 cwt. of potatoes). Do not reuse the diluted material that was prepared 24 or more hours earlier without mixing well. Five gallons are used for 1,000,000 lbs of potatoes.

NOTE: Decco 276 EC sprout inhibitor is used for the treatment of potatoes after harvest. Potatoes must be cured prior to treatment and, for maximum sprout inhibition, should be washed clean.

DIAGRAM OF A POTATO LINE FOR SPRAY APPLICATION OF CIPC-EC

COMPOSITION: Contains herbicide (CIPC), emulsifiers, solvents, and inert materials.

PRECAUTIONS Harmful if swallowed or inhaled. Avoid breathing vapors or spray mist. Use only with adequate ventilation. Keep container closed when not in use. Avoid contact with skin and eyes. Wear gloves and goggles or face shield when handling.

ENVIRONMENTAL HAZARD: This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on the label.

PHYSICAL PROPERTIES:

Appearance:	Viscous yellow liquid
pH range:	Not applicable
Specific gravity:	1.00 g/cc
Pounds/Gallon	8.35
Flash point:	66°F

SHIPPING CLASSIFICATION:

Flammable liquid, herbicide, agricultural, N.O.I.
