PRODUCT INFORMATION

Citrus Lustr® 402 Fruit Coating

DESCRIPTION

Citrus Lustr® 402 is a high shine food grade fruit coating for post harvest application on citrus fruit. The coating will reduce weight loss due to dehydration and serves as a carrier for most fungicides. The product is suitable for application on citrus for export to Japan.

COMPOSITION

Citrus Lustr® 402 is an aqueous solution of alkali soluble natural lac resins, fatty acids soaps, propylene glycol, silicone antifoam and other food grade emulsifiers.

DIRECTIONS FOR USE

For post harvest application on clean citrus. Apply Citrus Lustr 402 by spraying on well cleaned and fairly dry fruit without dilution. One gallon will coat approximately 8,000 pounds of small or 10,000 pounds of large clean, dry fruit or for use in the Decco process by or under supervision of Decco personnel.
