DIRECTION FOR USE:

For postharvest application on clean apples. Apply by spraying. Use without dilution. Apply at a rate of one gallon of coating to 10,000 pounds of apples. For best results, clean the apples with an appropriate Decco apple cleaner before applying APL-Lustr, or use in Decco process by or under the supervision of the Decco personnel.

CAUTION: Condensation may form on apples following their removal from cold storage or for other reasons related to the manner in which they are stored, handled, processed, or packed. Subsequent evaporation of the moisture may cause white spotting of the fruit coating. Because condensation with resultant white spotting can be caused by many variable conditions, all of which are beyond the control of Decco US Post-Harvest, Inc., Decco US Post-Harvest Inc. assumes no responsibility for white spotting following use of this coating.

CONTENTS: Food grade ingredients listed in 21 CFR.

Best use within 30days from opening.

Once opened keep the container tightly closed when not in use.
