If eye irritation persists: Get medical advice/attention
- **IF INHALED:** Remove victim to fresh air and keep at rest in a position comfortable for breathing
- Call a POISON CENTER or doctor/physician if you feel unwell
- Store in a well-ventilated place. Keep container closed
- Store locked up
- Dispose of contents/container to an approved waste disposal plant.

DIRECTION FOR USE:

This product is for postharvest application to clean apples. Apply one gallon to 8,000 - 10,000 pounds (1 liter per 1,000 kg) of apples by spraying onto the apples on a brush bed or other suitable applicator. Higher poundage of fruits can be treated on certain cultivars such as McIntosh, Golden Delicious, and Granny Smith. For best results, clean fruit with an appropriate Decco Cleaner prior to application of **APL-BRITE® VECTOR 7**.

CAUTION: Condensation may form on apples following their removal from cold storage or for other reasons related to the manner in which they are stored, handled, processed, or packed. Subsequent evaporation of the moisture may cause white spotting of the fruit coating. Because condensation with resultant white spotting can be caused by many variable conditions, all of which are beyond the control of Decco US Post-Harvest, Inc., Decco US Post-Harvest, Inc. assumes no responsibility for white spotting following the use of this coating.

CONTENTS: Food grade ingredients listed in 21 CFR.

Best use within 30days from opening.
Once opened keep the container tightly closed when not in use.

Please refer to SDS for **FIRST AID and other MEASURES**

IMPORTANT INFORMATION - READ BEFORE USING PRODUCT

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY: NOTICE: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded. It is impossible to eliminate all risks associated with the use of this product.
