

DeccoNatur™ 520

Organic Fruit Coating

DeccoNatur™ 520 (DN 520) is an “orange shellac” (unbleached), organic beeswax and organic carnauba based fruit coating for use on organically grown fruits and vegetables to maintain freshness.

DIRECTIONS FOR USE

Mix Before Use and During the Application

Citrus Fruit: Apply one gallon of **DN 520** to 10,000 to 12,000 lb of clean and dry fruit on a brush bed.

Apples: Apply one gallon of **DN 520** to 10,000 to 12,000 lb of clear dry fruit on a brush bed.

Pomegranates: Apply one gallon of **DN 520** to 12,000 to 15,000 lb of clean dry fruit on a brush bed.

Others: For other commodities consult Decco personnel.

Notice to buyer: Always conduct pretests on all produce commodities and varieties before commercial application.

CAUTION!! Condensation may form on apples following their removal from cold storage or for other reasons related to the manner in which they are stored, handled, processed, or packed. Subsequent evaporation of the moisture may cause white spotting of the fruit coating. Because condensation with resultant white spotting can be caused by many variable conditions, all of which are beyond the control of DECCO US POST-HARVEST, INC., DECCO US POST-HARVEST, INC. assumes no responsibility for white spotting following the use of this wax.

CONTENTS

This product is formulated in accordance with 21CFR and NOP guidelines and regulation.
