DIRECTION FOR USE:

PFS Kleen is the only approved cleaner for the **Decco PFS**. All cleaning cycles are automated to minimize disassembly and manual cleaning of the muzzle and temperature probes. The **PFS Kleen** reservoir located on the PFS must have a sufficient level of cleaner in it for the equipment to cycle and operate effectively. The control system will notify the operator when the 2.5 gallon reservoir must be refilled. After refilling, the reservoir cap must be closed to prevent entry of contaminants into the system.

Caution! Do not substitute **PFS Kleen** with any other liquid. Doing so will damage the equipment, void warranty, create a safety hazard and possibly contaminate or damage the produce being treated.
